

School of Pharmacy

University General Education Requirements

The University has adopted General Education requirements in a variety of curricula areas that must be satisfied as part of every bachelor's degree program.

School of Pharmacy Requirements

Students in the School of Pharmacy must complete the following requirements in order to complete the requirements for a Bachelor of Science (BS) degree and to prepare for professional studies that will begin in the junior year. Students should note that some of these courses may also be used to fulfill University General Education requirements.

Course Requirements

<p>Biology BIOL 1107</p> <p>General Chemistry CHEM 1127Q & 1128Q OR CHEM 1124Q, 1125Q, & 1126Q</p> <p>Organic Chemistry CHEM 2443 & 2444</p> <p>Economics ECON 1201 (Content Area 2)</p> <p>Mathematics MATH 1131Q</p>	<p>Molecular and Cell Biology MCB 2000 MCB 2610</p> <p>Physiology and Neurobiology PNB 2264 & 2265 or PNB 2274 & 2275</p> <p>Physics * PHYS 1201Q</p> <p>Social Science Any 1000 level Sociology, Psychology or Anthropology course from Content Area 2.</p>
---	--

Course Sequence

The recommended sequence for completing math and science courses is presented below.

<p>First College Year – First Semester CHEM 1127Q 4 credits BIOL 1107 4 credits MATH 1131Q or 1060Q 3-4 credits</p>	<p>First College Year – Second Semester CHEM 1128Q 4 credits PHYS 1201Q 4 credits MATH 1131Q 4 credits (*If completed MATH 1060Q in first semester)</p>
<p>Second College Year – First Semester CHEM 2443 3 credits MCB 2610 4 credits PNB 2264 4 credits</p>	<p>Second College Year – Second Semester CHEM 2444 3 credits MCB 2000 4 credits PNB 2265 4 credits</p>

Admission Criteria

When reviewing applications for entry into our professional program, our admissions committee looks, in general, for students who have the following:

- Completed all pre-requisite college coursework
- Preferred GPA of 3.0 or higher in college
- Strong aptitude in math and science
- Demonstrated good citizenship (community service or involvement of all kinds)
- An interest in and general knowledge of the pharmacy profession
- A professional demeanor

All applicants invited to interview must complete the interview for final consideration.

Recommended supports for success:

- Repeat at UConn AP and college level pre-requisite math and science coursework earned while in high school (unless earned through one of UConn's ECE classes).*
- Join a pharmacy club at UConn
- Access academic support early as needed

* Repeating AP courses has been proven to help insure a strong base before entering our professional program.

Additional factors considered include a completed application and special questions to the University with all supporting documents by December 15.

Application Elements

- Personal Statement
- Official Post-Secondary Transcripts
- Recommendation Forms (2)
- English Proficient Examination Scores (IELTS and/or TOEFL) for applicants whose native language is not English

Notes for all applicants:

Applications are completed through the PharmCas system (www.pharmacas.org). The complete application is due to PharmCas by the first Monday in January for fall admission consideration.

Calculation of the math/science pre-requisite GPA:

-To calculate the cumulative math/science pre-requisite GPA, the total grade points earned for courses are divided by the number of total credits. The total credits for the 11 specific math/science prerequisites equals 42.

Substitutions

-When approved course substitutions are taken, the courses are treated as substitutions and *not* as replacements for the specific prerequisite courses (42 credits.) For example:

-CHEM 1124Q, 1125Q, and 1126Q (a total of 10 credits) will be averaged and substituted for 8 credits of CHEM 1127Q and 1128Q.

*** Physics**

-Physics 1401, 1501, etc. can be substituted for Physics 1201.
